1. Three uranium mines were opened in the vicinity of Zlate Hory (P51/H93) in August 1952. However, no ore has been obtained yet. Preparatory work began in June 1952, when four experimental drillings were made and three of them showed satisfactory results.
2. Recruitment of workers is being organized by the labor office at Jesenik (P 51/H72, formerly Fryvaldov). Farmers sentenced to forced labor and also miners from uranium areas are being assigned to the Zlate Hory shafts.
